Who we are

Advantage Accreditation is an accreditation body specialising in health and social care. We support care organisations and training providers to deliver nationally recognised training programmes, with flexible accreditation built around your needs. We provide quality assurance to you, your learners and external regulators. Our mission is to improve training and standards in the care sector.

We can accredit your own courses, or you can use accredited Advantage mandatory, specialist and clinical Awards mapped to national frameworks and standards. We can support your in-house trainers to become subject champions and drive up standards.

We can also reduce your costs by improving training and giving you access to our Accreditation Portal to record training and produce certificates.
